

## 7.4: Model Validation

[Print](#) [view](#) [Index of pages](#)

### Topic 7.4: Model Validation

Read Chapter 11 of your textbook. As you read, take notes on the following.

- 1 In your own words, compare and contrast model adequacy checking and model validation.
- 2 In your own words, explain how you can use the coefficients of a regression model and its predicted values in model validation.
- 3 In your own words, describe how data splitting methods work in model validation.
- 4 How is the PRESS statistic used in model validation?
